

Holiday Schedule

Independence Day Facility Closure

Tekno's facility will be closed on Friday, July 4th in observance of Independence Day. Please keep this in mind regarding component orders for your shutdown activities. Our office will re-open on Monday, July 7th at 7:00 am. We hope that everyone has a safe and wonderful Holiday.

Shutdown Activities

Component Parts

Time is drawing near, but it is not too late to get those needed components for your Summer Shutdown Preventative Maintenance and Project Activities. We have plenty of components in stock and can ship them promptly.

Conveyor Chain: Is it time to replace your conveyor chain? And don't forget the master links.

Chain Clips: Designed to prevent screws and other debris from getting into the chain and beam and causing damage, these clips are a very important part of your system. If you have missing or damaged chain clips, replace them now.

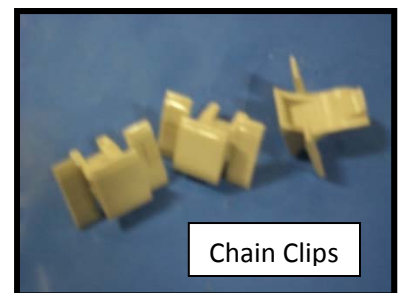

Catenary Guards: Replace damaged catenary guards. You might even consider upgrading to our new Auto-Escapement style.

Chain Break Tools: Much more effective than a grinder and a punch, Tekno's chain break tools are specially designed to fit our conveyor chains. These are available for both standard and wide 2060 chain.

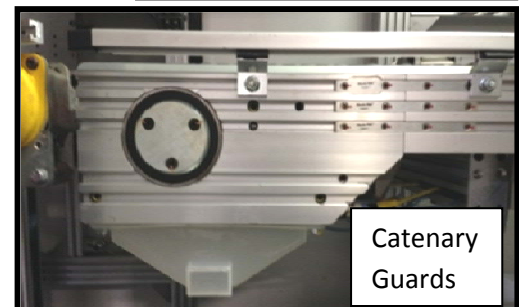

Call or e-mail us today at Sales@Tekno.com for pricing. Our personnel will be glad to help you find the specific items that you need for your system and discuss how we can assist you.
