

### Holiday Schedule

#### Memorial Day Facility Closure

Tekno's facility will be closed on Monday, May 26th in observance of Memorial Day. Our office will re-open on Tuesday, May 27th at 7:00 am. We hope that everyone has a safe and wonderful Holiday.

### Maintenance and Support Videos

#### Online Instructional Videos:

These days, you can find a video on the internet regarding how to do almost anything. Tekno is keeping pace with this new technological revolution by providing invaluable tools to assist our customers in maintaining our equipment. Tekno has videos available from our website at [www.tekno.com](http://www.tekno.com). Just click on the Maintenance and Support Tab to access these videos.

We currently have videos for the following:

- Chain Breaking
- Chain Installation
- Master Link Installation
- Chain Beam Cleaning
- Replacing a Nord VFD
- Remote Control for Nord VFD

We are increasing the number of videos available constantly. Of course, if you can't find a video for the specific task you are looking for, our in-depth documentation package provided with the system can be a valuable tool. However, keep checking our online video library for updates.

Leading The Industry With Modular Solutions

## Tekno AGV's

Tekno's AGV's are becoming increasingly popular with our customers. Low cost combined with modularity make them a favorable solution for many applications.

Tekno's AGV's include the following features:

- 1,000 lbs Direct Load Bearing Capacity
- Up to 200 FPM Travel Speed
- Speed Controlled Zones
- Zero Turn Radius Capable
- 360° Safety Scanners
- Highly Efficient with Extended Battery Life
- Opportunity or Fixed Battery Chargers
- Modular Design
- Low Profile or Stacked Height Configurations
- Load handling frames and carts utilizing our modular extrusions and hardware
- Automated loading and unloading available

Systems can be supplied as stand-alone or integrated into your systems. Give us a call to discuss the possibilities that a Tekno AGV solution can offer for your facility.

## Future Issues

### Tekno Mexico

The new sign has been installed at our Tekno office in Saltillo, MX. We will be having ribbon cutting ceremonies and will continue to provide updates as we move forward with training and expansion of our Mexico team. Stay tuned to future issues for more information.

### New Products and Product Improvements

We'll provide more information on Tekno's most recent product developments:

- Tekno ASRS System Options
- Injection Molded Wire Way Junctions
- Tekno Shocks
