Progress On The New Sales Trailer

The Sales Trailer now has a shell into which equipment can start being installed. This trailer is a project that we are very proud here at Tekno! We do not settle for anything that is not to the latest and greatest technology. And when that wasn't available, we built it. The sales trailer will be ready to hit the road fully functional by the end of the second quarter. So if you would like to get on the schedule please contact us.

Continuous Improvements at Tekno

Tekno is a company that strives for continuous improvement. Education on the newest products is a top priority for us. In the last few months we have had several Lunch and Learns with the following companies: IFM, Balluf, CED. We have updated our systems to the latest AutoCad version and invested in AutoCad Electrical with more happening in the future. We believe it is important to know about the latest and greatest products are available. This ensures we remain front runners in providing your industry with leading modular solutions.

New Product LED Lights

Tekno is proud to introduce our new LED work lights! LED lights are quickly becoming the industry standard. Many of you have requested them to be included on your conveyor overhead. However, the pricing for these LED lights has been much higher than their predecessors. This led Tekno to develop our own LED light bars to be used in conjunction with our conveyor systems, work tables and other equipment. We now offer either 2ølong (V087022100) or 4ølong (V087012100) LED lights. Here is an example of our work tables with the new LED lights. If you would like to replace your current lights and upgrade to the new LED give us a call.

Inside Sales – Summer Shut Down Around the Corner

Summer shut down is just around the corner. We want to make sure that we are supporting all your needs during that time! So, please check your inventories and your list of upcoming projects and get your orders in now. This will save you time and money because you can ship it ground instead of next day air. Please contact Dustin Mustread in our inside sales department today for all your component needs and get your orders in early.

UPCOMING NEWS:

Tekno is planning an open house in late spring/early summer 2016. We will be releasing more information as the dates are set and plans are finalized. We look forward to sharing with our customers and suppliers all of the exciting new products and improvements since the last open house. Stay tuned for more information.
